

What do you see?

A book about
LOOKING and SEEING

My mum and dad take
lots of pictures

Trees, houses,
sunsets, creeks ...
anything!

Sometimes they take
pictures of things
that are not even
there!

I found this picture the other day

I think it's a **dragon!**

With a long neck and a big nose!

What do you think?

See what I mean?

It is breathing fire
and smoke

and

it has colourful scales

But my brother thinks
it's an Emu!

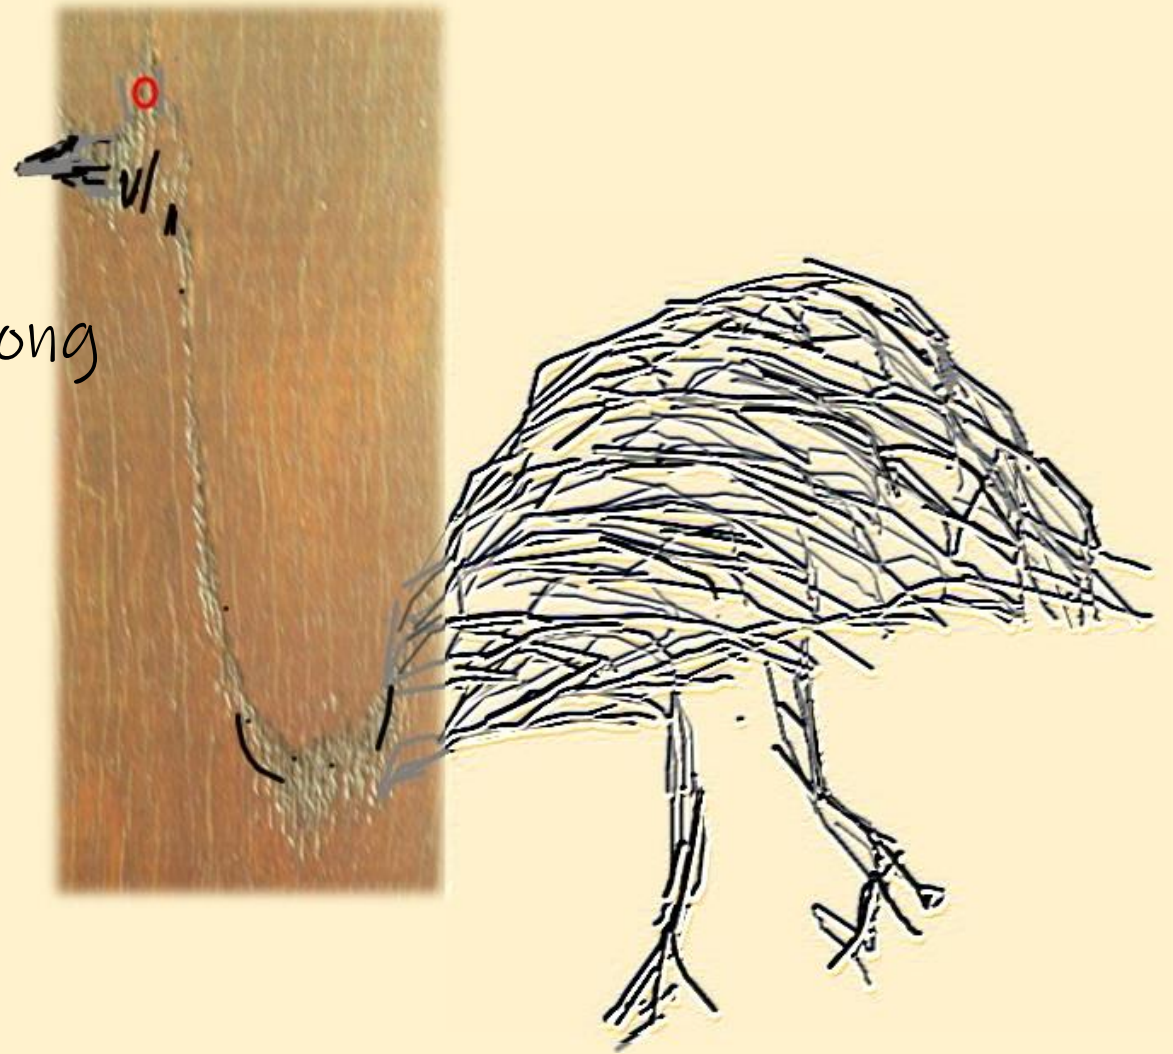

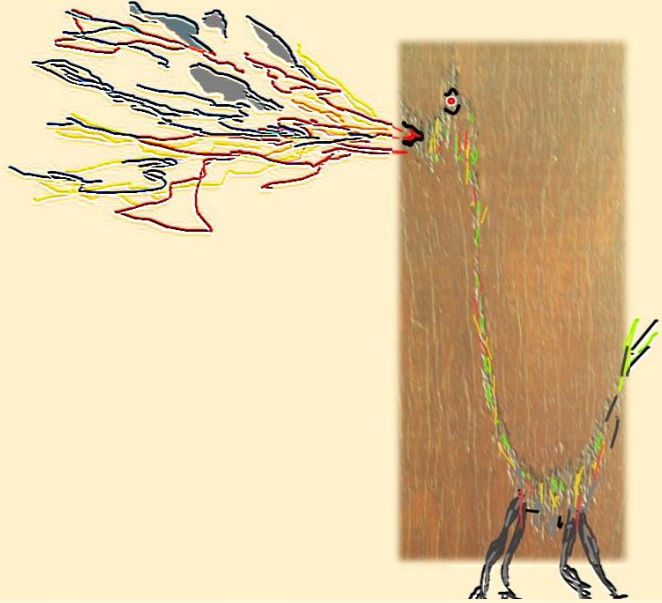

It is an emu!

One with a very long
neck

Which is it?

Dragon or Emu?

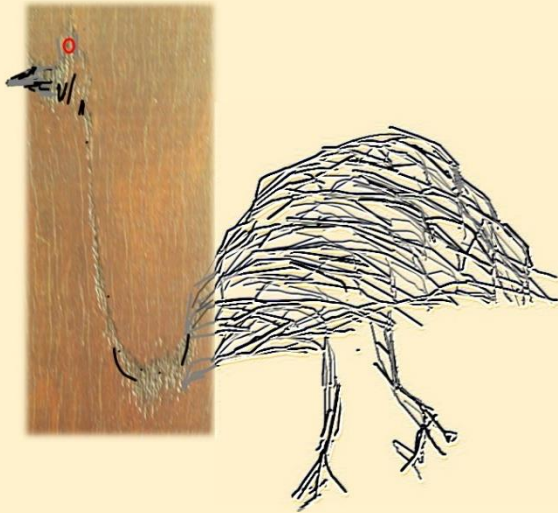

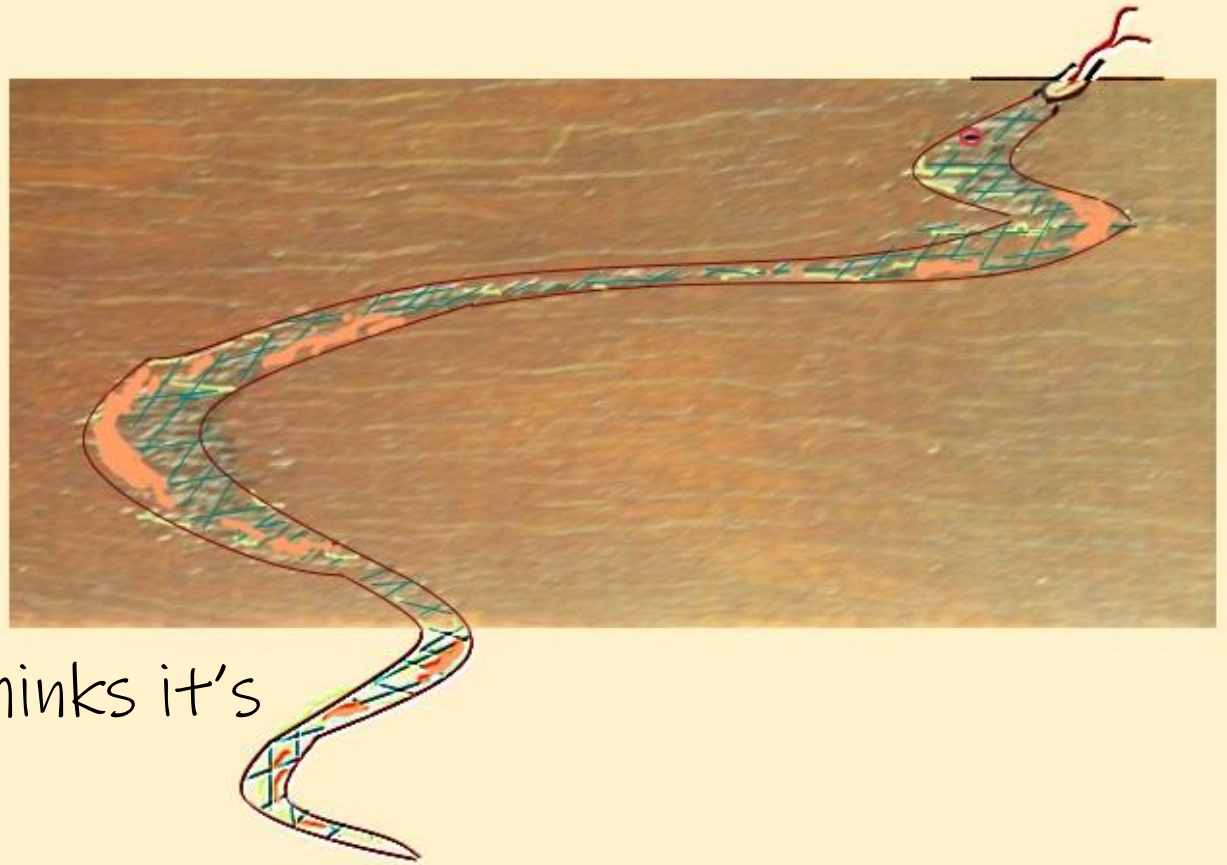

It is a dragon *and* an emu!

Perhaps it can be other things as well...

May be even a Snake!

Here's the snake
Hissssss!!!!

My brother thinks it's
a fishhook!

He likes fishing.

There's his fishhook!

I think it may be a
necklace!

The necklace is lovely!

I think we should look for
bigger things...

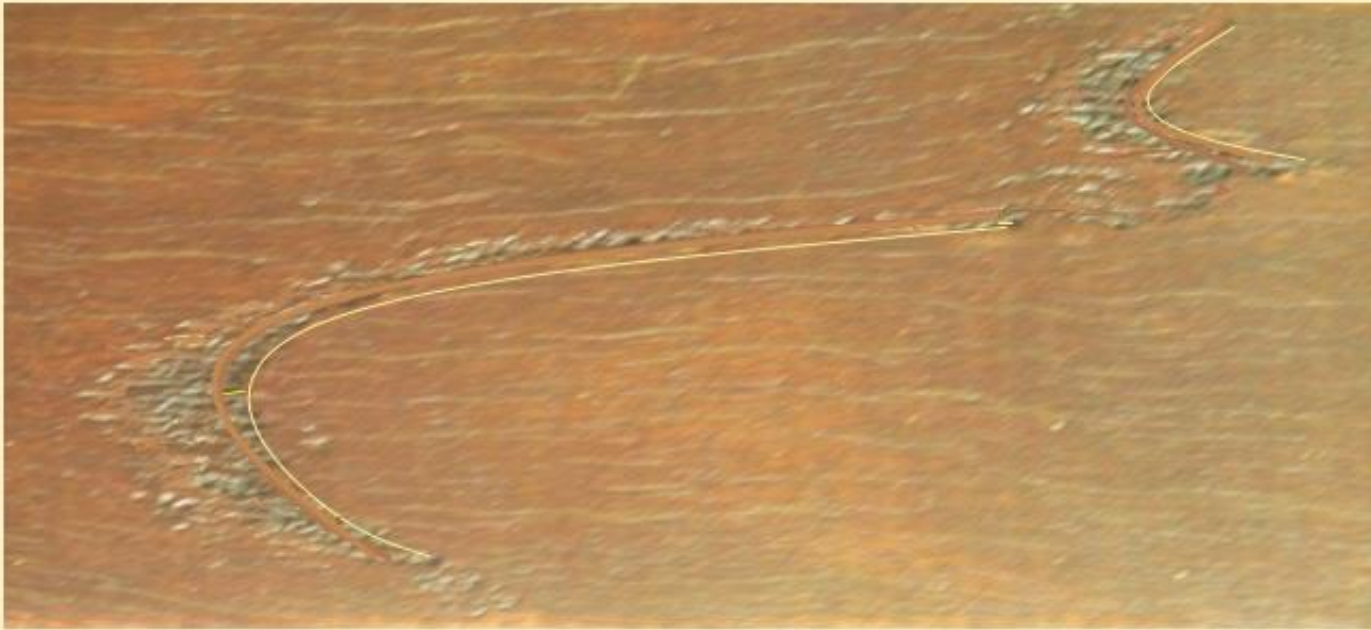

Your turn!

Sand hills in the desert!

They are called **Dunes**

What would you say?

I think that's a boomerang!

I know what a painted boomerang looks like.

My friend has one!

Clouds!

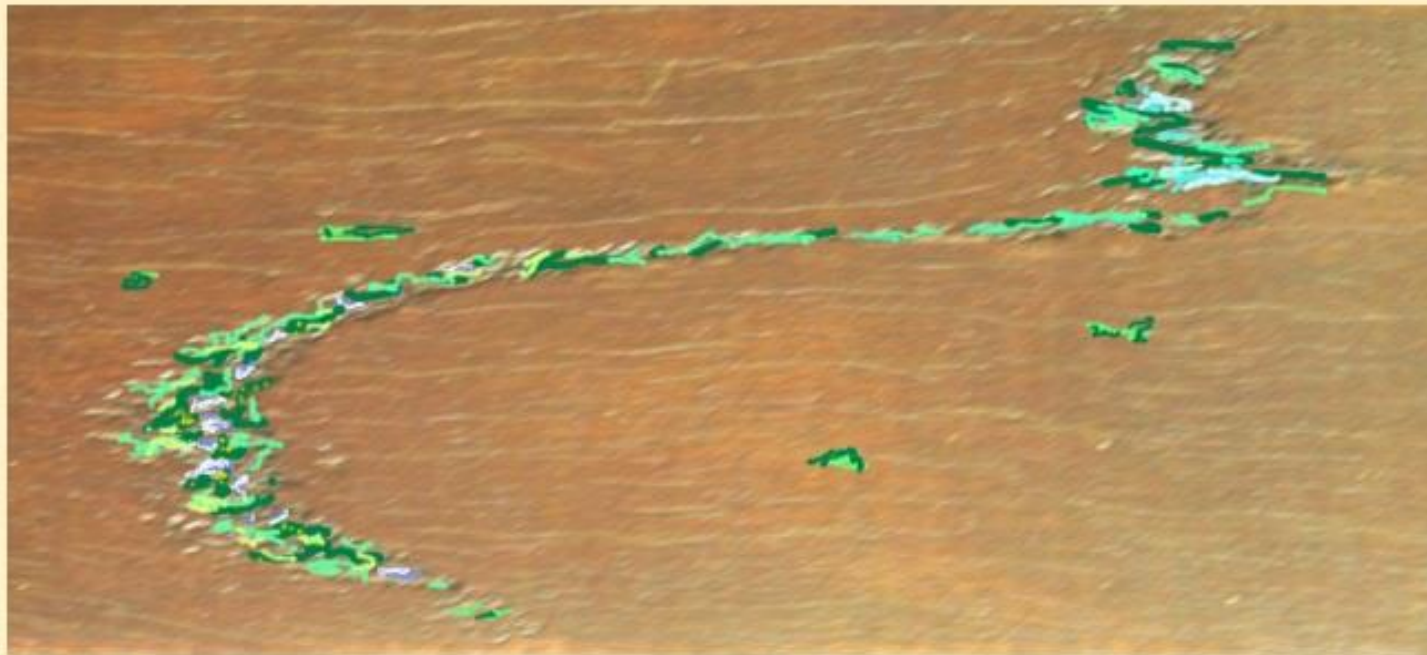

I am in a plane and lots and lots of little clouds look like this from above

It must be windy for clouds to look like that.

They are not clouds - I think it's a **creek** ... in the desert!

See the trees and the pools... The pools can be **billabongs**!

It looks to me like a big hill
with snow on it

It's cold....Brr.....

But... it can't be all these
things, can it?

Let's ask Dad what it
really is...

Listen chaps...

They can be anything
you want... First
imagine it... and you
will see it!

It's a bit more
difficult when you are
older but for now...

Keep looking... and
SEEING!
